经营理念

MANAGEMENT CONCEPT

我们以“呵护美好生活，守护美丽生命”（Protector of Beautiful Life）为己任。

我们每一个人、把我们带到这个世上的父母、无论何时都坚定地站在我们身边同甘共苦的家人和伙伴、以及所有我们祝愿平安的生命，都是“无可替代的生命”。

而孕育这一切的地球，更是需要我们每个人去守护。
我们把“守护生命和地球”作为企业的使命和公司经营的理念。

We have been solely committed to being
“Protector of Beautiful Lives”.

Beautiful lives mean our own selves, the parents who lead ourselves to this world, the families and associates having every confidence in brightness to share even a hard time, then expanding to all lives that we would like to cultivate, and moreover, the earth that surrounds those.

It is our mission “to protect lives and the earth” as well as the management concept of the company.

いのちと地球をまもります

To protect of beautiful lives and the earth

我们一直秉承「**呵护美好生活，守护美丽生命**」的意志，满足客户的需求，持续不断地提供让客户满意的产品。

我司有幸参加政府、企业、高校三方联合开发的项目，也通过这些项目的推进，更进一步拉近了同客户的关系，加深彼此之间的信赖感，让我司能够更加专注于产品的开发和品牌的拓展。

Without deviating from our mission as a "**Protector of Beautiful Life**", we will continue to provide to our customers the things they need, making them happy and satisfied.

Through development projects with industry, government, and academia, our relationship with customers is becoming closer than ever before. We are focusing on expanding sales and product development.

大衛株式会社

コーポレートマーク

Corporate symbol

所有的品牌中心位置, 都有一个「♡」符号, 这个符号象征着生命, 我们将此符号命名为【COCORO】, 日文中的汉字写成「心」。

在新生命诞生的时刻; 在呵护养育的时刻; 在需要医疗支援的时刻; 在维系家人纽带的时刻, 种种生活中的、生命中的难忘瞬间都恰如其分地诠释着「呵护美好生活, 守护美丽生命」。

We put 「♡」 "COCORO", with the meaning of "life", in the center of all of our brand marks.

Our management philosophy of being a "Protector of Beautiful Life" is expressed in a visual brand. It means to support the birth of new life, to foster the new life, to gently support in medical care when needed, and to support family ties become stronger.

マタニティ製品ブランド

amethyst MATERNITY

1

产科、妇科用品系列

Obstetrics and Gynecology Products

我司同医院在产品研发上实现一体化，积极开发各种便利舒适的产品，也因此收获了“产科用品就选大卫”的美誉和信赖。

Daiei has been pursuing amenities and conveniences for Obstetric and Gynecologic products, collaborating with hospitals. It is our great honor that Daiei has been the designated supplier in many scenes for long years.

主要产品：

分娩套装，产妇卫生巾，清洁棉，分娩产包，防水吸水床单，产褥垫，冰枕，产妇用内裤，新生儿避难袋，柔湿巾等。

Main Products:

Packaged Delivery sets, Delivery napkins, wipers, Absorbent sheets, Absorbent mats, Breast pads, Labor/ Surgical kits, and so forth.

2

一次性产品系列

Disposable Products

根据各种产品的使用情况进行最适宜提案。我们以适用于医疗现场的各种无纺布为中心，结合使用的时间地点场合等因素进行筛选，同时也考虑防止感染风险、管理费用合理化等因素，将安全高效、经济实惠的一次性用品提供给医疗前线。

Suitable proposals are to be applied corresponding to your usage and scene. We have been offering systems by picking up appropriate medical non-woven fabric from various line-ups, preventing from infection, and considering safety and economy with optimizations in manpower and inventory control costs.

主要产品：

一次性手术衣，手术用铺单，吸水垫，医患服，一次性手术帽，口罩以及灭菌消毒包装材料等。

Main Products:

Surgical gowns, surgical drapes, under pads, patient gowns, caps, mask, sterile wrapping materials, and so forth.

3

医疗卫生材料系列

Medical and Sanitary Products

我司的医疗卫生材料是以纱布、脱脂棉、绷带为主,在此基础上又根据医疗领域的不同需求,以方便医生护士的操作,让患者舒适使用作为目标,开发出各种高品质的产品,并赢得了医院以及患者的高度的信赖。

Daiei supports various medical scenes with broad range of medical and sanitary products considering convenience of doctors/ nurses and amenity for patients.

主要产品：

纱布, 脱脂棉, 绷带, 敷料组合, 成人纸尿裤, 天使系列, 棉球, 棉棒等。

Main products:

Gauze, Absorbent cotton, Bandage, Dressing, Paper diaper for adult, Angel set, Cotton ball, Cotton ball stick.

4

医院缝制用品系列

Reusable materials

我司的缝制产品是长期在医院现场实践创造出来的结晶。缝制产品不仅在材质上严选斟酌,并结合医院的意见建议进行改良设计而成。全棉产品具有其他一次性产品不可媲美的优良品质, 突显产品的差异化。

另外我司还有面向医院用的亚麻类材料以及产品, 并接受定制。

Our sewed products are accumulation of ingenious trials and experiences in medical field for long years, forming demands of hospitals, which has good characteristics that disposables do not have. We assemble wide variety of linen tailored to the need of each hospital.

主要产品：

手术衣, 患者服, 护士服, 防护衣, 手术用特殊缝制品, 各种固定带等。

Main Products:

Surgical gown, Patient wear, Cap, Mask, Drapes, Specific sewing product for surgery, Various fixing belt.

面向普通消费者的产品

PRODUCTS FOR CONSUMERS

让更多人可以使用“从医院诞生”的产品

Products “born in hospitals” to more people

我司的产品大部分都是在医疗现场的最前线研制开发出来的。换言之可以说是由医生、护士等医疗现场的专业人士从专业的角度开发而成。

Most of the Daiei's products have been developed in the front line of medical fields. It can say that doctors and nurses materialized them.

为了让更多的普通消费者能体验并使用我司的产品，我们在面向普通消费者的事业推进上驻足力量。以医疗现场的实绩为坚实的根基，逐步拓展普通药店、药妆店等线下实体以及线上店铺的销售。

We focus on easier purchase of such products for consumers. Supplies to pharmacies, drug stores, and mass-merchandisers are increasing, with the background of our strong performances in the medical field.

本公司位于三重县津市的生产基地拥有医疗器械、医药部外品、化妆品的制造业许可证，配备有无尘室和灭菌设备（高压蒸汽灭菌 / 环氧乙烷 EOG 灭菌）、以及其他含清洁棉的制造机在内的各种生产制造设备。

在清洁棉的生产制造过程中，我们对“水”特别讲究。我们使用在医药品的注射用水等级中级别最高的“无热原质水”。

热原质是指发热性物质，由微生物代谢后的细胞壁中的脂多糖（LPS）组成，即使是极微量进入人体内也会引起发热，在灭菌工序中是无法去除的。我们使用特殊的过滤装置来去除热原质，精制而成“无热原质水”。

我们致力于研发和生产面向婴幼儿、老年人等免疫力低下人群以及受敏感肌问题困扰人群的产品，其中代表产品“纯水清洁棉”是日本过敏皮炎协会（アトピー協会）的推荐商品。

作为应对重大灾害的 BCP 计划（事业持续计划）关键环节，我们的物流网络遍布日本，在北海道、关东、中部、关西分别设置了各个区域的物流中心。

Tsu Plant

Authorized “Medical device Manufacturer” “Quasi-Drug Manufacturer” and “Cosmetics Manufacturer”

has “Clean room” “Autoclave and Ethylene Oxide Gas(ETO) sterilization” and “Pure water cotton manufacturing device”

We produce “Pure water cotton” from “Pyrogens free water”, which is generally adopted to “water for injection”.

Pyrogen is a substance, typically produced by a bacterium, which produces fever when introduced or released into the blood.

We use special filter, because we cannot remove pyrogens by sterilization.

For babies and elderly, who have weak immune, and for people who are sensitive of skin, We use carefully select materials. Our main product “Pure water cotton” is recommended by “Atopy Association in Japan”.

Regarding logistics, we have 4 distribution centers(Hokkaido,Tokyo,Mie,Osaka) to be a hub in order to prepare to natural disasters as one of BCP(Business Continuity Plan).

许可以及认证资质

AUTHORIZATION AND CERTIFICATE

根据日本国药事法取得的厚生劳动省的各类许可

医药品制造销售许可
医疗器械制造销售许可
医药部外品制造销售许可
医疗器械制造许可
医药部外品制造许可

取得认证
ISO13485:2016 津工厂

根据 2005 年 4 月修改并实施的日本国药事法中规定，可以完全外部委托医疗器械的制造。本公司接受医疗一般用品、医疗器械的委托加工及 OEM 生产。

(Admission/Licenses by Ministry of Health, Labour, and Welfare based on Pharmaceutical Affairs Law of Japan)

Pharmaceutical Product Marketing Authorization holder

1950 年代 (创业期) 1950s (Initial stage)

大衛成立于 1951 年，从制造和销售脱脂棉，纱布，绷带（所谓的卫生三品）起家，产品销售主要面向药房，化妆品店。之后研发出将纸棉融入脱脂棉后提高吸收性的生理用品。伴随着这款产品的问世，我司正式迈入生理用品领域。

In 1951, Daiei was established and started to produce and distribute Absorbent cotton, Gauze, and Bandage, mainly to drug stores. Then, a sanitary product with excellent absorbent capacity by mixing cotton and paper was well accepted in the market, which directed us to sanitary fields.

1960 年代 (転換期) 1960s (Turning stage)

各家大公司以强大的资金阵容进驻生理用品市场，转型之路迫在眉睫。我司利用此前积累的技术经验，开始着手开发孕产妇相关的产品。得益于前期与医院方面打下的良好基础，我司的产妇生理用品逐渐在医院进行销售。与此同时也开始构筑面向医院销售的全新模式。

However, an entry of a big capital into the sanitary market forced us to turn the direction. Newly approached obstetric equipment field with our accumulated technologies. And, reached to launch of new Delivery Pad with hospitals tied up, which was also a trigger of establishment of new sales channels.

1970 ~ 80 年代 (成長期) 1970s to 1980s (Growing stage)

同医院一直保持着良好的关系，顺利开发出很多的新产品。为了扩大销售范围，也为了能够给更多的医院提供优质便捷的服务，我司在全国设置了 10 个办事处，确立了全国的销售网络，为在市场份额的角逐中作出了巨大贡献。

Good connections with hospitals realized many new products. In order to penetrate them throughout Japan and support hospitals more securely, ten sales offices opened, which attained establishment of entire network in Japan, and contributed to the top market share in Japan.

1990~2000 年代 (発展期) 1990s to 2000s (Expanding stage)

通过在业界内率先取得 ISO 13485 认证，尽早致力于提供更安全、放心的产品。运用阪神淡路大地震中的经验，扩充以救援妈妈避难用品为中心的灾害对策产品，唤起了医院对于灾害对策的重视。

Acquisition of ISO13485 in the van of the industry, in order to supply safer products.
Taking advantage of the experience of Great Hanshin-Awaji Earthquake(1995), we produce disaster control products, "RESCUE-MAMA" etc.
We promote the awareness of disaster response.

2010 年 ~ (変革期) Since 2010s (Reforming stage)

随着企业、政府、高校三方联手共同项目的顺利开展，倾力于“按需产品开发”。

其中，“随着内窥镜手术增加而导致手术时间的增加”、“夜间、紧急手术的激增”等医院现场的实际状况日益严重，作为对于最新医疗需求的产品开发，全新上市了与大阪大学共同开发的商品“手术围兜”和被 WHO（世界卫生组织）推荐的商品“自助穿手术衣”等创新商品，，继续为医疗现场做出贡献。

Throughout the "Industry, government and academia project", we produce "Endo-apron" and "Self-Gown(adopted to WHO recommending product)", first time in the world.
These products are contributing to such latest environment in hospital that increasing surgical time because of endoscopic surgery and that increasing emergency surgery.
